

# Insurance Companies Are The Target of Recent Cybersquatting Campaigns

An ongoing cybersquatting campaign targeting MetLife, a global insurance company, was reported by IBM Exchange X-Force, listing 12 malicious domains. We dug deeper into the campaign as part of our goal to expand lists of indicators of compromise (IoCs). By doing so, we hoped to determine if more attack vectors could be targeting MetLife and if the threat also applies to other insurance companies.

This file contains:

- A total of 63 domains containing the text string “metlife” that were registered from 23 September to 18 November 2021.
- A sample of 500 domains out of the 6,185 domains containing the text string “insurance” and that were registered from 23 September to 18 November 2021.

Please [contact us](#) to learn more about this research or discuss other opportunities for collaboration.
